

Error Message: * Generating a bootstrapper at C:\Users\John\Desktop\Stingray\Stingray - Compiled\Bootstrapper.exe Error Code: 0x800f07b5 Any help would be appreciated. I'm using Windows 10 64 bit and have recently installed the Autodesk Apps for Steam, so that's taken out of the mix. UPDATE: I've now tried installing Bamboo 3D after my initial attempt failed due to me having Daz Studio which is now at version 5.2.8. Can you see why I'm getting this error? A: I guess it has something to do with the fact that you have Autodesk Maya 5.3.1 (Win/Intel) in your PC and Autodesk Stingray 1.2.526.0 in your Software Center. You have to install the Autodesk Stingray 1.2.526.0 x64 edition for Windows from the Autodesk Stingray 2016 webpage. Otherwise you should uninstall Maya. Three of us (a couple and two friends) stayed in a very well appointed room. There was a large comfortable bed, a small kitchen...More We spent a wonderful week in this hotel. We arrived early on Sat morning and were given a lovely welcome. A fabulous welcome bag awaited us. The room was lovely and had everything we needed. Breakfast was fab and the location was stunning. If you want somewhere you can enjoy a great break in an amazing area this is it. It is gorgeous, the room was very comfortable, we had a group of 4 and it had everything we needed. The location was fantastic and we went...More Have you ever been to this hotel? If so, what did you think of it? I have never actually stayed at this hotel but I have seen it many times. I am forever being told that the rooms are magnificent, that the food is amazing and 6d1f23a050
